ABOUT VELVIN INDUSTRIES

MANUFACTURER OF COMPOSTABLE PAPER CUPS AND PRODUCTS

▶▶ OUR HISTORY

VELVIN INDUSTRIES is a leading certified INDIAN compostable paper cup manufacturer. As an evolving paper cup company, we are extremely proud of our heritage, but most importantly, we are excited about the future.

▶▶ OUR CULTURE

The success of our compostable paper cups depends on the success of our people. We make sure that we create an environment where all of our employees are able to perform at their best.

▶▶ OUR TEAM

We aim to attract and maintain a diverse employee base, with a wide variety of individual characteristics, perspectives and experiences in every part of our business.

▶▶ OUR COMMITMENT

As a leading compostable paper cup company, we are dedicated to manufacture great quality paper cups to meet the need of a variety of service applications within the food service industry.

100% Compostable

Most paper cups labelled as recyclable or compostable contains plastic. Plastic coated cups (PE coated) are not compostable and cannot be easily recycled. while some paper cups labelled as recyclable or compostable are only compostable under controlled conditions and are rarely recycled. In most cases, they end up in landfills or are washed into the waterbodies.

V Green Bio Cups does not contain the typical plastic and are

- ✓ Easily recyclable
- ✓ Home compostable
- ✓ Industrially compostable
- ✓ Biodegradable

**BIODEGRADABLE

Do you know?

According to the PWM regulation (notification published in the Gazette of India, Part II, Section-3, Subsection (i)), New Delhi, 18th March 2016, as amended rules 2022), "plastic" means a material that contains as an essential ingredient a high polymer such as polyethylene terephthalate, high density polyethylene, vinyl, low density polyethylene, polypropylene, polystyrene resins, and multi-materials such as acrylonitrile butadiene. **V Green cups does not contain any of the above complex molecules.**
